ABOUT ME

Front-End Developer with hands-on experience designing and building responsive, accessible websites using HTML, CSS, JavaScript, and React. Skilled in translating user needs into wireframes and mockups in Figma, then implementing them into clean, functional interfaces. Brings 6+ years of customer-facing experience gathering requirements, explaining technical concepts in plain language, and managing multiple priorities in fast-paced environments. Looking to bring a collaborative, detail-oriented approach to building and maintaining modern, accessible digital experiences.

FEATURED PROJECTS

Skusuks (React eCommerce)

2026

- Designed wireframes and mockups in Figma, then built a responsive React storefront with scalable architecture, structured for future Shopify and payment integration. URL: <https://sku-suks-react-refactor.vercel.app>

Conard's Woodworks

2026

- Designed Figma wireframes and built a website with responsive product galleries and auto-filled custom quote requests, passing product data directly from catalog to contact form. URL: <https://conards-woodworks.vercel.app>

Portfolio Website

2026

- Designed Figma wireframes and built a responsive portfolio site showcasing web development and data analytics projects, with EmailJS integration for direct recruiter/client contact. URL: <https://billyconardportfolio.vercel.app>
